2016 Rulemaking Docket Minnesota Rules, Chapters 7861 – 7865

October 3, 2016

In 2012 the Minnesota Legislature approved lawful gambling electronic gaming. Based on four years of experience with these games, the Minnesota Gambling Control Board is proposing rules to provide further clarification and regulatory effort involving the design of electronic games, the play of electronic games, and the information and records maintained. There may or may not be non-electronic rule provisions clarified.

The official process is expected to begin in 2017.

The Board has not prepared a draft of the possible rule amendments. However, when prepared, a draft will be posted at www.mn.gov/gcb. The most current version is always posted. A copy may also be requested from the agency contact person listed below.

Comments on the rules may be directed to the agency contact person.
